

## **Gordon Powers**

***Trustee, Co-Director- Ellis Observatory***

B.S., Clarkson College of Technology, Mechanical Engineering

[powers931@earthlink.net](mailto:powers931@earthlink.net)

Mr. Powers is a mechanical engineer and has worked at the U.S. Army Armament Research, Development and Engineering Center for 34 years. He is presently a Systems Project Engineer at that facility. He has been associated with the Sterling Hill Mining Museum for the past eight years, working on various projects as well as giving tours. His hobbies involve science in general and amateur astronomy in particular.

In conjunction with William and Denise Kroth he built the [Ellis Astronomical Observatory](#) at the museum and was one of the designers and builders of Sterling Hill Mining Museum's "[Periodic Table of the Elements](#)" display.
