

Michael A. Pierce, P.E., R.A., P.P.

Trustee

B.S. Civil Engineering, Lehigh University
M.S. Civil Engineering, Lehigh University
Professional Engineer, Registered Architect, Professional Planner

Mr. Pierce is the principal of Pierce Engineering, a structural and geotechnical engineering firm that specializes in forensic investigations and materials analysis in the construction industry. Many of the projects that Mr. Pierce has completed over the past 30 years involved the structural restoration and preservation of historic buildings and structures.

He is an avid rock and mineral collector with a particular interest in the geology and minerals of Franklin and Sterling Hill.
